EXPERIENCE

jBeck Digital / 2018 - Present

- Designed, coded, and successfully deployed websites for international clients, in a variety of industries and businesses in a freelance setting.
- Applied my knowledge of HTML, CSS, SCSS, and JavaScript to create quick, responsive, and interactive websites to my clients' specifications and requests.
- Maintained and updated code, using the latest syntax and frameworks/preprocessors to ensure an efficient final product.

SASS

GIT

JAVASCRIPT

FIGMA

NODE.JS

NPM

I excel in these areas:

*Front-End
Development*

JavaScript

Figma / UI Design

*CRUD & Working with
APIS*

CAREER OBJECTIVES

- I am a self-starter; highly motivated to join an enthusiastic team and produce high-quality, modern and efficient code.
- I'm currently seeking a Jr. Developer Role to apply my knowledge and learn as much as possible as I continue my developer career.

EDUCATION

Collingwood Collegiate

2008-2012; Collingwood, ON

- I am a self taught developer. I have completed over 5000 hours of programming and web development practice, with many different technologies. I'm a quick learner and coding is my passion - That said, I do hold a variety of certifications from reputable online learning platforms and would be glad to share them.
